### Tax Cuts Voted By Congress In Effect

WASHINGTON, D. C., June 3.—(By the Associated Press.)—A new federal tax law is on the statute books today, but it will have to weather a determined fight by the administration to obtain a law more to its liking at the next session of congress, to remain there. President Coolidge served notice in a statement, issued coincident with his signature, that he would "hold all of his energies to obtain passage at the next session of a bill less political and more economic."

Despite its "obvious defects," the president said in his statement that he had signed the bill as serving the best interests of the country because of its advantages as a temporary relief and a temporary adjustment of business conditions, adding that a "correction of its defects may be left to the next session of congress."

The bill which the president declared represents merely "tax reduction, not tax reform," cuts federal revenues by an amount estimated at \$381,000,000 for the next fiscal year and decreases tax rates generally to lower levels since 1917. Almost every federal tax payer shares in the tax relief afforded. Although the tax payer's pocket book will not feel the actual benefit of the reductions in income taxes applicable to incomes of this year until he pays them in 1925, he is granted the immediate relief of a 25 per cent decrease in income taxes for the current year now.

### JUSTICES AND DEPUTIES ARE INDICTED IN LUCAS COUNTY

TOLLEDO, O., June 3.—(By the Associated Press.)—Fourteen indictments were returned against justices of the peace and their deputies by the Lucas county grand jury today. Each indictment charged extortion.

The grand jury report is the immediate result of a series of investigation into the history of prohibition enforcement in Lucas county that began several weeks ago when Federal Judge John M. Killits in a letter to Attorney General Clegg called attention to conditions in Toledo and vicinity brought about by agents working out of justice courts.

Five justices and eight deputy marshals and constables were named in the indictments. Those indicted were: John Eldon, Justice Jerusalem Road, one count; C. C. Peck, mayor of Wyand, six counts; Louis H. Shover, mayor of Harbor View, two counts; Jacob Tremblay, one count; Benjamin Leciardi, indicted jointly with C. C. Peck on five counts. D. H. Gould, justice of Crissey, O., indicted with Fred Gould, deputy on two counts. Ernest Grove, was indicted with Mayor Shover. John N. Huffman and Harry Rose, both of Harbor View, were jointly indicted with Mayor Shover on one count.

Benjamin T. Butte was indicted with Justice Tremblay on one count. Huffman and Rose also were indicted on a second count in addition to the indictment naming Mayor Shover.

### Brookhart and Sweet In Close Race In Iowa Vote

DES MOINES, IOWA, June 3.—(By the Associated Press.)—Senator Smith W. Brookhart slowly increased his lead over Burton E. Sweet today as county precincts reported the result of yesterday's Republican senatorial primary. With approximately one-half of the precincts recorded, he had a lead of 7,101 votes.

Senator Brookhart's campaign leaders declared that the increase represented the beginning of the climb in his advantage they had expected after the bulk of the city vote should be reported, while campaign managers for the former congressman declared they were not ready to admit defeat.

The vote in 1,254 precincts out of 2,412 was Brookhart, 112,339; Sweet, 105,238.

It seemed probable that the Republican state convention would be called upon to nominate a candidate for governor when returns in that six-sided contest had been received from 1,014 precincts. Of a total of 174,176 votes, John Hammill, the leader, had 90,985 or approximately 20 per cent. Thirty-five per cent would be necessary for a primary nomination. Hammill was followed by W. T. Burdette with 57,000, J. C. Hays with 33,764; J. H. Anderson, with 30,910; J. D. Buser, with 7,637, and A. J. Banks, with 6,781.

The evening record which has been preserved between the White House and the congress despite rude jabs of the house, tax bill, immigration question and world court is definitely scheduled to dissolve on this question. Coolidge managers insist upon the president virtually writing his own platform.

Senate Republicans, a score of whom are up for re-election, believe that if he is permitted to dictate it, that he alone can stand on it.

A sort of declaration of principles is what Coolidge managers desire. This, however, senate leaders believe, show them in direct conflict with Mr. Coolidge because of legislation in the present congress.

They want the platform a tent big enough to cover them as well as the president, and one to bring in hold relief all differences that exist between congress and the White House.

The president, however, will virtually name the platform committee, insuring the planks that represent his views.

Such stalwarts as Watson and Lodge, who have been platform molders in the past, will have little voice in the proceedings. Lodge may not even be a member.

### Re-Enacting Franks Slaying

Nathan Leopold and Richard Loeb, 19-year-old confessed slayers of Robert Franks, 13-year-old Chicago schoolboy, have shown a willingness to assist authorities in clearing up the details of the kidnapping and murder. After their confessions they led detectives to a lagoon in Jackson Park into which they said the typewriter upon which the ransom letter was written had been dumped. Arrow points to Leopold.

### 20,000 Shriners In Kansas City for Golden Jubilee

KANSAS CITY, MO., June 3.—(By the Associated Press.)—The golden jubilee of North America's Shrinism got under way officially today when twenty thousand uniformed pilgrims from all parts of the country assembled in colorful array to escort the imperial divan to its council chamber.

Long before the start of the parade, tens of thousands of spectators were surging against cables stretched along the royal trail. Other thousands found places in huge grand stands banked along the route. The stands were designed to seat 60,000 persons.

Bands, patrols and chanting organizations attired in the gorgeous multi-colored uniforms of 75 temples, began lining up early in the morning for the triumphal trek in honor of Grand V. Dykeman, of Brooklyn, imperial potentate, and the other imperial officers. A highway of the Orient, decorated in all the splendor befitting the reception of an eastern prince, led to the imperial council chamber at convention hall.

Oriental columns, sphinxes and obelisks lined the way, while aloft were draped many banners depicting fantastic Egyptian symbols. The downtown streets of a middle western city had been transformed.

The parade was the outstanding feature of the day's program. "There will be other parades during the convention, but for brilliance and pageantry,"

### Mozart Symphony Found In Austria

LANZACH, AUSTRIA, June 3.—(By the Associated Press.)—A hitherto unknown Mozart Symphony, Number 221 in C Major, has been found in the Benedictine convent of this city. Music experts declare that the symphony evidently belongs among the Vienna symphonies of the years 1767 and 1768. The manuscript was found when research students from the music-historical institute of the University of Vienna came in Lanzach to study and classify the musical archives of the convent.

The Mozart family was greatly interested in the convent, for among the manuscripts in the archives are fifteen symphonies written by Mozart's father.

### Had Marvelous Escape From Serious Injuries

CLEVELAND, O., June 3.—(By the Associated Press.)—Mrs. Anna Peterson, her daughter Vivian and Helen Messelton, a friend, had a marvelous escape from injuries last night when an automobile in which they were riding, plunged down a forty-five foot embankment and landed upright in a foot of water in a creek in Rockefeller Park. Mrs. Peterson, who was driving, lost control of her car as she attempted to avoid another machine. In its plunge, the automobile crushed a small tree. Except for a broken wheel, the machine was not damaged.

### Try To Connect Boy Murderers With Other Crimes

CHICAGO, June 3.—(By the Associated Press.)—State's Attorney Crowe today in starting grand jury investigation of the kidnapping and slaying of Robert Franks, which has been confessed by Nathan Leopold and Richard Loeb, millionaires' sons, officially began inquiry to determine whether they were connected with the murder of Freeman Louis Tracy and the mutilation of Charles Ryan last fall.

Assistant State's Attorney Joseph N. Savage and detectives were assigned to investigate the Tracy and Ryan crimes as a result of the identification late yesterday of Leopold and Loeb by Ryan as the persons who maimed him.

CHICAGO, June 3.—(By the Associated Press.)—Nathan E. Leopold, Jr., and Richard Loeb, confessed slayers of Robert Franks, spent the night in jail while prosecutors and detectives sought to connect them with at least one other murder and a mutilation attack in further elaboration of their Dr. Jekyll and Mr. Hyde, existence-hour graduate students at the University of Chicago by day and seekers after thrills in the laboratory of life by night, thrills which satisfied their faded appetites of 10 years only with death.

The youthful kidnapers—slayers, both prospective heirs to millions, still maintain their only motives in killing the 14-year-old Franks boy was an experimental adventure and hope of obtaining the \$10,000 ransom demanded from Jacob Franks, the father, a retired multi-millionaire pawn broker and manufacturer.

Norman Ryan, young taxi-driver, taken to the county jail by newspaper men seeking an explanation of the attack and mutilation upon him last fall, screamed an identification of Leopold and Loeb and fell in a faint.

The other unexpected attacks which like that of Norman Ryan, occurred in the vicinity of the Franks, Loeb and Leopold mansions in the South Side millionaire colony, is the murder of Freeman Louis Tracy, college student and high salaried electrical technician.

The Tracy murder never has been explained. His body with a bullet hole through the head, was tossed from a speeding automobile near the University of Chicago after he had been seen nearby a short time previously returning home from a dance.

In furtherance of his fight to send young Leopold and Loeb to the gallows, Robert E. Crowe, state's attorney, today will seek indictments from the June grand jury.

It was only when three steel gates had changed behind them last night that the full weight of the accusations against them seemed to dawn upon young Loeb and Leopold. The latter, debonair, smiling, who had been throughout the long period of questioning, which had resulted in his confession and assistance in recovering various incriminating articles, sagged at the knees, sighed and moaned.

"Three doors—three steel doors. I never thought it would come to this," it was Loeb (he) who had been seen in a short time previously returning home from a dance.

## CONGRESS VOTES TO ADJOURN SATURDAY

WASHINGTON, D. C., June 3.—(By the Associated Press.)—Congress will adjourn next Saturday under a house resolution adopted today by the senate.

Republican and Democratic party leaders joined in securing this approval for the adjournment plan despite the protests of the LaFollette group of insurgents and others who wanted to delay action until there was definite assurance that farm relief, railroad and reclamation legislation could be passed.

Just before final action, Senator LaFollette, removed for a recess of a month instead of final adjournment, was voted down 38 to 52 and a proposal by Senator Frazier, Republican, North Dakota, to delay the adjournment date until June 21, was defeated 35 to 53. The vote by which the house resolution was adopted was 53 to 30.

## LaFollette Has Decided Definitely To Run For President, Says Willard

BY DAVID LAWRENCE  
(Copyright, 1924)  
WASHINGTON, June 3.—Robert M. LaFollette, senior senator from Wisconsin, has decided definitely to make the race for the Presidency as an independent irrespective of whether William G. McAdoo is named on the Democratic ticket or Calvin Coolidge on the Republican ticket for he has given up hope of "borling from within" the two old line parties to secure the enactment of a progressive program.

Mr. LaFollette believes Congress should not adjourn now but should stay in session all summer if necessary to accomplish agricultural relief and other needed reforms and is urging his followers in the Senate and House to block adjournment so far as possible and make their record clear on this point.

These are the opinions expressed by Oswald Garrison Villard, of New York city, editor of "The Nation," the liberal weekly, after a conference with Senator LaFollette today. Mr. Villard goes back to New York to complete the organization of a committee to be affiliated with the conference for progressive political action which is to meet in Cleveland on July 4th for the purpose of nominating Senator LaFollette for the Presidency.

"The friends of Mr. LaFollette," said Mr. Villard, "are convinced that in taking the stand that he does he is far less actuated by any effect it may have upon his own personal fortunes than by his desire to give the voters of the United States an alternative to voting for either of the old parties."

### West End Improvement Association Elects New Officers Friday; To Discuss Many Improvements

Final arrangements were made yesterday afternoon by the West End Improvement Association for the annual election of officers and a fish supper to be given Friday night of this week at the Washington Hotel.

The committee to take charge of the banquet includes, Fred W. Klingmann, Dr. Joseph Gill, and Lawrence Zuehl. A large crowd is expected to attend and a special invitation will be sent to the members of the new bridge committee.

All members of the Association, their wives and employees are urged to make the Friday program a success.

City officials and members of Council will be invited to attend in a body. Secretary Whitehouse announces, declaring that the Association wants to show its gratitude for the co-operation given by the city administration in working out improvements in the West End.

An invitation will also be extended to officials of the Portsmouth Public Service Co. in order that the business men of the West End may confer with and offer their co-operation in the street railway improvements along Second street.

To this end, the meeting yesterday adopted a motion, recommending that the city grant to the street car company right to extend double tracking a short distance west from its present terminus at Market street, a step which the company feels will aid it in keeping on a five minute schedule. About a block of doubletracking will be extended in place of the present single tracks.

In addition numerous other excise taxes are reduced. Theater tickets of 50 cents and under are exempted; automobile trucks, the chassis of which sell for \$1,000 or less, and bodies for \$250, or less are exempted from the 3 per cent tax; while the 5 per cent levy on automobile tires, parts and accessories is cut in half.

Articles selling for \$30 or less and watches selling for \$1 or less are exempted from the 5 per cent jewelry tax, as are also surgical and musical instruments, eye glasses, spectacles, and other articles used for religious purposes. The tax of two cents on each \$100 sale on produce, exchange is cut in half.

**Increased Estate Levy**

The tax on playing cards was increased from eight to ten cents a pack. The same brackets of amounts to which the estate tax is applied in the present law are retained, but the rates are increased so that the maximum is 10 per cent on amounts of \$50,000 and over instead of 25 per cent. It is estimated this increase will bring in \$12,000,000 additional revenue annually.

The new gift tax, imposed, its authors said, merely as a complement to the estate tax and to check evasion of the latter, carries the same rates as the revised estate tax. It allows an exemption of \$50,000. Also numerous other exemptions would be allowed including gifts to public purposes and charitable, educational and religious organizations. The tax will be levied on the donor and against the total amount of the gifts during the year.

This tax goes into effect on January 1. The rate would start at one per cent of gifts not in excess of \$50,000. It is estimated this tax will bring in \$2,000,000 revenue annually.

The new tax on Mah Jongg sets is 10 per cent. The new normal tax rates on individual incomes are two per cent on incomes of \$3,000 and under, four per cent on incomes between \$3,000 and \$8,000 and six per cent on incomes above that amount. The surtax rates range from 1 per cent on incomes between \$10,000 and \$14,000 and forty per cent on incomes over \$50,000.

which we deem hopelessly corrupt. We feel that the great need of the country today is a progressive political party with a clear cut program of reform along the lines of those urged by Woodrow Wilson in his first campaign for the Presidency when he called for radical reform and declared that the President of the United States heretofore had to go hat in hand to Wall street for orders.

"I believe that Mr. LaFollette finds himself in the same position as Senator Norris of Nebraska who, it will be remembered did not wish to run again for the Senatorship because he felt that it was hopeless to 'buck the system' as it functions in Washington. Mr. LaFollette has tried for more than thirty years to reform his party

### Small Investment Gives Big Returns to Portsmouth Man

"The use of Penger, the new medicine being introduced at Fisher & Streich's Pharmacy, has been a wonderful thing for my husband, said Mrs. W. M. Swavel, wife of W. M. Swavel, of 1225 Mabert Road. "I sleep soundly at night. Now he looks much better and he says he is feeling fine. That wasn't out of feeling fine. He is just full of pep and in the morning gets up and goes to work without complaining at all."

I know Penger is a fine medicine and I want to recommend it to every person in Portsmouth."

from within. He has never bolted the Republican party and did not leave it in 1912 when Roosevelt cut leads. It is therefore a tremendous wrench for him to do what he has said that he will do if the two national conventions do not afford him the ground for believing that they mean to purge themselves in dead earnest. Since there is no likelihood whatever of the conventions doing this, I can not escape the belief that he will announce his candidacy as soon as the conference for Progressive political action has met.

"I am frankly astounded at the efforts of support Mr. LaFollette has had for an independent movement not only from independent labor organizations but from men who were ardent followers of Theodore Roosevelt in 1912. I do not think it will be hard to organize a nonpartisan committee of varying political viewpoints who feel that they must have a ticket that they can vote for without apologies. Of course people who feel this way are not thinking merely about 1924. We want to see a permanent organization come into being which shall elevate the whole tone of our political life and give us a new-old leadership along the lines of the progressivism of the Theodore Roosevelt and Woodrow Wilson of 1912. It would be a great misfortune, of course, if out of this movement there should be nothing definite left on which to build in the years to come. No one can deny that there is no essential difference whatsoever between the Republican and Democratic parties as they are constituted today. It is just like the fight over the income tax—a question of whether they should be fixed at 30 or 32 or 40 per cent and not a difference of principle or policy. The same is true of the tariff situation today. As the South becomes a land of manufacturers, more and more Democrats are going over to the protective theory so that the former distinction between the two parties along tariff lines is rapidly becoming obliterated. What other issues differentiate them? None."

Mr. Willard was asked if he knew who would be considered for the Vice-Presidency on the LaFollette ticket and he said probably an Eastern Labor man but the center is being very seriously debated because of the possibility remote though it may be of the electoral college going after March four next. try, the Oriental procession today was planned as the crowning event of the gathering. Fireworks will reign in the parades to be held tomorrow and Thursday.

All day yesterday and most of last night downtown Kansas City was a riot of music and fun. A teeming mass of humanity swirled, ebbed and ebbled in the streets. The rainbow regiment of innumerable shrines and shrines glinted in a gigantic human kaleidoscope.

Bands played as they paraded through the streets and drill teams performed continuously for the onlookers, singing songs of their respective temples and shouting praises of the home town. Calliope ran here and there and ballroom dancers holding their bobbing waists aloft and other peddlers swathed in the shrines colors, injected their strident cries in the headdress.

The picturesque attire of Chinese appeared with the arrival of Island Temple, San Francisco. Besides the band and patrol dressed in the accepted shrine garb, the visitors from the Golden Gate City include 200 men in Chinese dress.

Imperial Potentate Drunkenman, Kismet Temple, Brooklyn, brought his own band, known throughout the Meonic world as the "Shrine's Millionaire Band." The organization has seventy musicians, several of whom are millionaires.

Milidank, of Chicago, probably the largest orchestra—more than 500—carries a 110-piece band, a fifty-piece Oriental band, five patrols of forty men each, and sixty chanters.

Aladdin Temple, of Columbus, Ohio, has a delegation of 200. This temple, which made the late President Harding a Shrine, has a membership of almost nine thousand. It is preparing to erect a three million dollar mosque, which will be the largest building in a new civic center in the Ohio capital.

Some of the temples have their mascots. Mohammed of Peoria, Ill., has "Fat," a good natured camel. Mosleh, of Fort Worth, Texas, brought a white-faced Texas steer.

Four thousand of the Shriners are living in Pullman cars parked in the railroad yards and they enjoy the same conveniences as their brethren who dwell at the hotels. The cars are equipped with special sanitation, lighting, water and telephone service.

At 2:30 this afternoon the Oakland coupe was found at Front and Gay streets, where the thieves abandoned it. They evidently became frightened and made good their escape.

Bald, had automobile thieves, who have been operating in Portsmouth in high gear for several weeks shifted the scene of their operations early this morning to the very shadows of the police station. They stole an Oakland coupe, 1924 model recently confiscated by the police and made a clean get away with the machine. It is believed that the car, valued at \$1,500, was stolen between the hours of 2 and 4 o'clock this morning, although it was not until 8 o'clock that Charles Lowe, auto mechanic at police headquarters, notified Chief Arthur that the machine was missing.

Parked Near Barn

It had been parked on the east side of the barn in the rear of police headquarters since its confiscation two weeks ago in the North End. Besides the fact that the distributor had been removed from the machine and the air had been released from all four tires the car was stolen, it evidently having been pulled away by another machine. Chief Arthur is of the opinion that the thieves recently visited the scene, observed what the car needed to complete its theft and they returned and towed it away. He expressed the belief today that members of a whiskey gang which has been operating in and around Russell, Ky., is responsible for the theft. "The trick was turned by more than one man and I am already working on what may prove to be a pay-off case," the chief told a Timesman today.

"I have repeatedly asked council to build a place, where we could keep confiscated cars in safety, but my pleas have fallen on deaf ears and you see what has happened. The car stood out in the alley for two weeks and there are four more there and any one may be stolen at any time," the chief said.

"I think hereafter I'll keep my car at home as it seems dangerous to leave them around the police station."

**Arrests Made**

Two weeks ago two men giving the names of Preston Dooley and John Brooks and Russell, Ky., as their homes were arrested in the stolen Oakland coupe at Russell and Fifth streets by Officers Field and McFarland. They had 27 gallons of moonshine in the tonneau of their car. They were arrested, found guilty of possession and transportation. Unable to pay their fines they were remanded to the county jail and could not have been implicated in the theft of the machine, according to the police.

Several days ago a man giving the name of Chester Hughes and Russell as his home, called at police headquarters and claimed the coupe. He was immediately arrested on a charge of transporting whiskey in the machine. He pleaded not guilty and his trial is set for June 10. Released on bond Hughes returned to his home in Russell several days ago.

**Some Funny Slants**

"There are a lot of funny slants to this theft and I am going to sift to the bottom of all clues. I believe the car is a stolen one in the first place. It was originally sold to a Charleston dealer," the chief said today.

Sergeant Frank Linnett, who was at the desk last night, says he did not hear any kind of a machine in the alley and it is possible that three or four men pushed the car down the alley to Front street and then pulled it away.

**Operated Upon**

### Tax Cut

(Continued from Page One)

the repeal of many excise taxes, such as those on telegraph and telephone messages, soft drinks, candy and theatre admissions of fifty cents or less, also will be felt within thirty days.

Preparations for administration of the act set forward today in the treasury and a formal estimate of \$20,000,000 for refunding the 25 per cent retroactive reduction to those who paid their 1923 income taxes in full March 15, was before Director Lord of the budget. These refunds, for which Congress must make the necessary appropriation are to be paid as quickly as possible without application from taxpayers to whom they are due.

The president's criticisms were directed chiefly at the measure's failure to make greater reductions in surtaxes of further insurance of tax exemption of securities at the increase to maximum of forty per cent in the estate tax, the publicity features and the action of Congress in reducing the salaries recommended for members of the board of tax appeals and affecting their terms of office. He also intimated he might call a conference prior to next session of Congress to work out a scheme for division of taxes between the federal and state governments.

WASHINGTON, June 2.—(By The A. P.)—The provision for a 25 per cent reduction in income taxes payable this year, contained in the new revenue law, may be put into effect by the tax payer immediately.

Persons paying on the installment plan may cut their second installment by one fourth each.

Those who paid the full tax on March 15, will receive as soon as possible a refund of one fourth from the treasury without making application for it.

**Income Tax Changes**

The following changes are ordered in the income taxes:

A 25 per cent reduction on taxes payable this year.

General revision of both the normal and surtax rates, amounting to a 50 per cent on taxes levied against incomes of \$8,000 and under.

An additional reduction of 25 per cent which may be made on earned incomes.

For purposes of this reduction all incomes of \$5,000 and under are defined as earned. The cut may be made only on incomes up to \$10,000.

Exemption for heads of families with incomes of \$5,000 and over is increased from \$2,000 to \$2,500 for the same as new allowed heads of families with incomes of \$5,000 and under. No change is made in the present law allowing an exemption of \$1,000 for single persons.

**Other Taxes Repealed**

The miscellaneous and excise taxes repealed are:

Telephone and telephone messages; beverages; candy; knives; dirks; daggers, etc.; liveries, etc.; hunting, shooting and riding garments; yachts and motor boats, (sail), carpets, rugs, trunks, suitcases, etc.; drafts and promissory notes, theatres, shows, circuses (floor space).

## Kellogg's Bran did more in two weeks than medicine taken in 20 years

Out of regard for your own health, read this letter:

Dear Sir: Your "Krumpled Bran," used by me as a cereal, has done more for me in two weeks than the hundreds of dollars' worth of medicine I have taken in last twenty years for constipation. It is wonderful, and it is so simple.

Yours truly,  
Arline H. Carman,  
Patheogue, N. Y.

Mr. Carman's experience has been duplicated in thousands of homes.

Why does Kellogg's Bran succeed when drugs and pills fail? The answer is simple. Drugs have an unnatural effect upon the bowels. They irritate the intestines. The more they are used, the more one has to use. Finally, they have no effect at all.

Kellogg's Bran STIMULATES the

intestines. It cleans, sweeps and purifies them. It acts exactly as nature acts. And it is never necessary to increase the amount eaten. If eaten regularly, Kellogg's Bran is guaranteed to bring permanent relief to the most chronic cases of constipation, or your grocer returns your money. For Kellogg's Bran is ALL bran. Nothing but ALL bran can be so effective. That is why doctors recommend Kellogg's.

The wonderful, nut-like flavor of Kellogg's Bran is exclusive. It is delicious—totally unlike ordinary bran. Eat two tablespoons daily—in chronic cases, with every meal. Eat it with milk or cream and in the recipes on every package. Kellogg's Bran, cooked and krumpled, is made in Battle Creek. Sold by all grocers.

## Little Chance For Passage Of Ohio River Legislation This Congress, Says Stephens

WASHINGTON, D. C., June 3.—Little chance remains for Congress to enact legislation for completion of the Ohio river projects within five years, as contemplated by the Rivers and Harbors committee of the House, Representative Stephens said today. He and others have been working to get a rule that would make the waterways bill in order. "The Rules committee is not against us," Stephens stated, "but the question is whether this can be reached. Hope is not entirely gone, but it is not very strong."

5. Adopted Daughter With "Real Mother"

CINCINNATI, June 3.—First clew to the whereabouts of Virginia Hammond, adopted daughter of Harry E. Drummond, who has been missing since Sunday, came today when Mr. Drummond received a telephone call from an unidentified man who said the child was "with her real mother."

Drummond said he had adopted the child three years ago from the Children's Home and did not know her mother. The mother never made any effort to see the child or to spirit her away before, he added.

The game "every day in every way" is getting lighter and lighter. With 18 men in the league, 13 is in first, 12 in second, 9 are tied for third and 4 are tied for fourth. All together the lowest man stands in seventh place! Some race.

At the meeting last night called by temporary President W. Thompson, nominations were made for a permanent president. W. Thompson, one of the oldest and best known pitchers in this section was elected to this job. So it is but only to President Crabtree.

Thompson took the job temporarily just to get the league started, and this job was done well, but he desired to be just a plain pitcher and not a pitching president.

## Time Tips For Amateurs

### SAYS STEVE O'NEILL, Boston Red Sox Catcher

A catcher cannot be too particular about his glove. If you would be a catcher, and a good one, first equip yourself with the very best glove you can get.

"This glove must fit your hand properly and meet with your approval. A great many catchers like the big glove. I prefer a small one. My objection to the big glove is that it interferes with the catcher in handling a slow hit ground ball in front of the plate. The big glove makes it harder to put the ball on the runner in a play at the plate. The ball sticks much better in a small pocket well broke in.

Never fail to back up first base, when there is no possible play at the plate. The value of this practice is never appreciated except when you fail to back up and the infielder makes a bad throw.

Get a natural style back of the plate that enables you to shift easily. It is a hobby of mine on catching. Ability to shift the feet quickly to meet every situation is most essential to the catcher.

My position back of the plate calls for the right foot to be about four inches back of the left. I find this puts me in a position to throw with little or no effort.

## QUESTIONS

1. Is there a limitation as to the length of the baseball bat?—E. M.

2. What is the weight of the official major league ball?—W. M.

3. If the batter hit a ball into the ground in front of the plate and before he moves out of his box, the ball rebounds and hits him, is it fair or foul?—L. P.

## ANSWERS

1. The bat cannot be more than 42 inches in length. At the thickest part, it cannot be over two and three-fourths inches in diameter.

2. The official ball must weigh not less than five nor more than five and one-quarter ounces.

3. The batsman invariably stands in foul territory when at the bat, therefore a ball that hits fair and bounds back and hits the batsman before he leaves the box is always regarded as, foul.

ABIE, THE AGENT

# The LAND OF FORGOTTEN MEN

BEGIN HERE TODAY

Big Chris Larnow, Alaska's famous fur trader, was killed by a storm in a small boat. He and his hard-drinking partner, Man, whom he had met that evening, were the crew for the open sea in the cutter launch to answer distress signal.

The Remittance Man found Mr. Chris Larnow, a fur trader, on the sea. The Remittance Man found Mr. Chris Larnow, a fur trader, on the sea. The Remittance Man found Mr. Chris Larnow, a fur trader, on the sea.

Dorothy Newhall received at her home in Anchorage, Alaska, a letter from Mr. Chris Larnow, a fur trader, on the sea. The Remittance Man found Mr. Chris Larnow, a fur trader, on the sea. The Remittance Man found Mr. Chris Larnow, a fur trader, on the sea.

Now go on with the story. Mr. Peter Newhall, a fur trader, on the sea. The Remittance Man found Mr. Chris Larnow, a fur trader, on the sea. The Remittance Man found Mr. Chris Larnow, a fur trader, on the sea.

She had loved this man who had died. She had loved this man who had died. She had loved this man who had died. She had loved this man who had died. She had loved this man who had died.

NEWHALL HAD HURLED HIM INTO THE WATER.

According to testimony brought out at the inquiry Peter had sought a bitter quarrel with Mr. Ivan Ishmin, a violinist of international fame who was spending the season at Alaska. South Carolina. When the men were at the verge of blows, Paul Sarichef, Ishmin's secretary, intervened in Ishmin's behalf, and warning on him in a far, Newhall was heard to threaten to throw him out of the boat into the river.

born between grief at the death of his secretary and loyalty to his friend Newhall, it was with the greatest difficulty that his testimony was drawn from him at the inquiry. Later this same night Ishmin was aroused by angry voices, and he left his stateroom to find his secretary, Paul Sarichef, and Newhall struggling on the deck, and before he could interfere, Newhall had hurled the unfortunate Russian into the water. Ishmin immediately dove to rescue him, but he saw the man go down for the third time before he could reach him. Almost crazed with grief, Ishmin spent most of the night in the river trying to rescue his friend's body, but though once he saw it drifting, he lost it in the darkness and it was never recovered.

Not even the officers of the law, though making every effort to apprehend Newhall, believed that it was a willful, premeditated murder. Newhall was deeply under the influence of liquor at the time, and it is believed that he committed the crime in a burst of drunken rage. According to Mrs. Newhall's testimony, Newhall had wakened from a drunken stupor the next morning with no memory whatever of either threatening Sarichef on the deck or of throwing him overboard. He fled to Western Alaska—far out on the Peninsula toward Siberia—and the above telegraphic dispatch completes the tragic story.

She read the piece through, then washed her tear-softened eyes and waited for the sound of Ivan's long, low roadster on the drive. She resolved at once to keep a brave front in his presence, mostly because of a great roadster, mostly because of a great roadster, mostly because of a great roadster.

Had her love come out to him in these past, bleak, miserable months of mourning? He fascinated her, this master violinist from the East, and there was no barrier between them now. The divorce Ivan had urged upon her would not now be necessary; the news from far Alaska had made her free.

Kagoshima, Japan, June 3.—Thousands of people lined the water front of Kagoshima and stood on the hills about Kagoshima Bay to cheer the American army around-the-world fliers as their arrival here at 10:30 this evening from Kishimoto.

The flight was a tiring and difficult one. It took six hours to cover the 124 miles. Piffut winds and rain retarded the aviators, who had been delayed at Kishimoto by bad weather.

With good weather the aviators hope to continue their flight 500 miles to Shanghai, Tuesday. Kagoshima is their last stopping place in Japan.

They have covered upward of 7,000 miles since leaving Santa Monica.

**"I Am Thin"**

Her Friend Says: **"She Is Skinny"**

If she only knew that she could put on at least 10 pounds of good, healthy flesh in 30 days she wouldn't be worrying about her peaked face and run down looks.

She has tried Cod Liver Oil, but the ill-smelling, nasty tasting stuff upset her stomach and made her feel worse than before.

Doctors and good pharmacists know that Cod Liver Oil is full of vitamins that make flesh, creates appetite, builds up the power to resist disease and chases away nervousness.

But it's horrible tasting stuff and every day fewer people are taking it for doctors are prescribing and the people are fast learning that good results with McCoy's Cod Liver Oil Tablets, which Fisher & Streich, Worcester, Mass., Stewart's Cut Rate Store and druggists all over the country are buying in tremendous demand for.

It's a wonderful upbuilding medicine for children, especially after sickness, and 60 tablets only cost 60 cents.

One woman gained 10 pounds in 22 days and if any skinny man or woman can't put on 5 pounds in 30 days, your druggist will gladly return the purchase price.

## Oh, Hum! Blackberry Day Rain; Crop Ruined

(Wellston Sentinel.) Monday was "Blackberry Day" and superstition has it that if it rains on that day the berry crop will be ruined. Well, it is raised, just as it has been doing for the past thirty years, but it is believed by many that signs will fail in this wet weather because of the fact that few blackberry bushes are in bloom, being held back along with the roses because of the constant downpour. Anyway, it is hoped that the crop has not been wholly destroyed for where is that good jam and possibly a little toothsome wine to come from?

## Ashland Sheet Worker Shot, Dies; Alleged Gun User Held

ASHLAND, Ky., June 2.—Walter Scott, 35, sheet mill worker, this city, died at the General Hospital in Ashland, Ky., at 12:40 this morning from bullet wounds, said to have been inflicted by Joe Rose, yard conductor on the Chesapeake and Ohio Railway.

The shooting occurred on 15th street between Greenup Avenue and Front street. Rose, who is 34 years of age and single, is said to have a cabin or camp of some kind below Ashland which had been made the butt of jokes among a crowd of their associates. Last night about 6:30 according to accounts of the affair, Rose approached Scott and asked if he was the party who named his cabin. Scott, it is said, replied "Yes, I called it the Rose Joe Cabin" or words to that effect, and thereupon, it is charged, Rose drew an automatic pistol and shot him down.

At the hospital it was stated that Rose was shot twice, once through the wrist and once in the side, the second bullet entering the back just above the kidneys and ranging down through the abdomen.

## United Praise for "Great White Way" at the Lyric Last Night

"The Great White Way" the Cosmopolitan Corporation's big motion picture of life in and around New York, which had one of the most sensational premieres in the history of the Lyric theatre last night, received the greatest critical approval ever accorded a photoplay in this city. Without a discordant note the reviewers hailed the new picture as the biggest thing of its kind. The great prize fight scene in

"The Great White Way" particularly aroused the interest of everybody. They characterized it as the most realistic ever filmed. The back stage scenes, revealing the famous "Ziegfeld Follies" being rehearsed by Ned Wayburn; the race track sequence at Belmont Park with its spectacular steeplechase; the thrilling fire scene and the big cabaret episode are other features of the new film that struck a responsive cord among critics and public.

## First Intersectional Games Today

NEW YORK, June 3.—Four Eastern clubs of the American League play in the West today and the Western teams of the National invade the East in the opening games of the second big migration of the baseball season.

Major interest attaches to the American, with Detroit as the strategic point in a triple contest with New York and Boston for the leadership. The Tigers, tied with the Red Sox, one-half game back of the Yankees, entertain Washington, and Philadelphia before clashing with the world's champions, the Boston.

The situation in the National League, where the Giants enjoy a

two-game lead and other clubs follow at distances graded mostly to one game, rests principally upon the success with which Western clubs renew their attack upon McGraw's team, which appears to be almost invincible in contests with teams of its own section.

The Giants displayed a reversal of form yesterday and defeated Boston, 9 to 6. Pittsburgh advanced to within a game of the Reds and the first division by trouncing the Cards, 6 to 2. Washington defeated the Athletics, 3 to 3, as Walter Johnson held Mack's team to seven hits. No other games were scheduled in either league.

## Customs In India Pictured to Lions' Club

Portsmouth Lions, at their meeting held last night in the Washington hotel, enjoyed an interesting and instructive address delivered by J. E. Longren of the Portsmouth Works, Wheeling Steel Corporation, dealing with his experiences in India.

Mr. Longren described life in India, telling of interesting experiences. He told of the caste system in vogue in that country for centuries, and described the customs of the people, telling of attending an Indian wedding.

Eleven servants were required for a household of two white people, he said, and added that six Indians were required to do the work of one American. Women do the heavy labor in India, he said, and receive as much as ten cents a day, while coolie men sometimes receive as much as 15 cents a day.

Mr. Longren paid tribute to the work of the American consular service in India, and particularly to the Consulate in Calcutta, which is ever watchful for the safety of citizens of the United States, he said.

Preceding the address, the club enjoyed one of the best song sessions in its history, under the leadership of Lion Chorister Talmadge Edwards, and with members of the club accompanying on "kitchen" instruments. John Fluke was at the piano, and President Fred Klugman favored the club with a selection on the banjo, and a "potato grater."

## THEY LIKE RED

The fans went wild over the Red Sox and George Alexander last night. Wise realized George had more experience and was clever but this did not keep him from going right in and from the first lap of the hell he kept going right after Alex, who managed to lead two or three times during the six rounds. Wise never backed up and when he would tear in Alexander took some punishment. There was no question of the decision and now fans are ready to have Wise, the prize of Slabtown, meet Deimos Smith, the Russell, Kr. youth who won over Alexander. Alexander weighed 111 and Wise 116.

The entire card was featured with mixing, which started with the first going announcing to Holmes and Young Sushell that they were before the fans for an honest-to-goodness contest and not a workout. They plainly showed lack of experience and mixed too freely for their own comfort. Sushell had the advantage in training and had Holmes on the verge of a knockout several times. Holmes deserves credit for staying the last couple of rounds.

## Driver Fined

Paul Davidson, Findlay street young man, nabbed by the police Sunday for reckless driving, was handed a fine of \$10 and costs and deprived of his right to drive for thirty days when he pleaded guilty in Municipal court today.

## Be Sure This Time!

When you are getting ready to have your house painted, it is important to remember that there are two essentials for every perfect job of painting—a good surface and reliable paint.

The time spent in thoroughly cleaning and preparing the surface to be painted will be repaid many times over in the added years of wear that can be expected from a paint applied under proper conditions. Hanna's Green Seal Paint goes furthest.

Hanna's Green Seal Paint answers every purpose—the formula is on the package. It looks best and weathers longest.

When it's time to think of painting—think of Hanna's Green Seal—for 36 years the standard.

## McNary-Haugen Farm Relief Bill Defeated in the House By Vote of 224-154

WASHINGTON, D. C., June 3.—(By The Associated Press)—The McNary-Haugen farm relief bill was defeated today in the house. Last minute efforts of the supporters to get through a less drastic bill also failed.

Rejection of the proposal left members of the house and senate and farm bloc in doubt as to what, if any, farm legislation could be rushed through if congress adjourns Saturday.

The bill was rejected 224 to 154.

## Mutilation

ling who had broken under interrogation and confessed.

Leopold, while reviling Loeb for weakness, revealed that he had planned for the inevitable. He reminded Detective Sergeant Crot of a trip to the Leopold home to recover a pair of rubber hip boots young Leopold had worn when he waded into a shallow lake to stuff the nude body of young Franks into a culvert, where he had hoped it would remain forever without detection.

"If I had only known that Loeb was peaching," he told Crot, "I'd have killed myself there in my room. Do you recall when I was standing at my desk? I had my hand on my gun. But before I killed myself I'd have put a few policemen out of the way. Yes, I'd have shot you."

The pistol, along with another was seized for evidence. The boys said they were armed when they seized the Franks lad Wednesday, May 21, and

that they would not have hesitated to shoot it out with any one who interfered.

The youths maintained their composure at the brief session yesterday of the coroner's inquest into the death of young Franks. They smiled and smoked incessantly, paying no attention to a crowd which milled about outside. The inquest was continued to June 27.

### Bullet That Slew Tracy

Fits Leopold's Gun, Claimed  
A declaration that the bullet which killed Freeman Louis Tracy a student on November 25, fits one of the pistols found in the room of Nathan Leopold, was made by Dr. Joseph Springer, coroner's physician today.

The physician's statement is the first clue that the authorities have found to connect the kidnapers with the Tracy murder one of the most mysterious slayings which ever confronted the police.

Tracy who previously had been a special student at the University of Chicago was found slain virtually on the campus, his body having been left on the street at Fifty-Eighth street and Woodlawn Ave.

13c had been shot through the head. Although he had an artificial foot Tracy was popular in a social way among student friends and other acquaintances and so far as investigation disclosed, never had an enemy.

He had left a party of friends about midnight the night of November 24 and was found murdered early next morning. It appeared to the police that he had been slain and then thrown from an automobile.

The Ream case occurred five days after the slaying of Tracy. Melvin E. Wolf, aged 24, who disappeared from the home in Hyde Park district of his wealthy grand father, Henry Lindenthal last April and was found in the lake, after he had left the house hatless and costless to mail a letter, was supposed to have committed suicide. That explanation never was accepted by relatives.

The Wolf death attracted new attention today when detectives began reviewing the proceedings of the coroner's inquest.

In it was recalled that Wolf's body was nude when taken from the lake. He knew both Leopold and Loeb, neighbors said today.

The investigators were considering the fact that both the bodies of Wolf and of Franks were nude when found; that Tracy was found mutilated in a prairie less than two miles from the spot where the Franks boy was left, and that both Tracy and Wolf probably had been made a captive in an automobile before being killed, just as was the Franks lad.

from Mexico City to Cleveland and is understood to have been approached regarding the chairmanship prior to his departure from the Mexican capital. The chairman of the resolutions committee which drafts the platform is elected by the members of the committee consisting of one delegate from each state, but it has said today by party leaders here that unless something unforeseen develops Mr. Warren would be chosen.

Mr. Warren probably will not be able to come to Washington to confer with President Coolidge before the convention meets, but is said to be well informed as to the desires of the president relative to a platform. Conference recently have been held by the president and Secretary Stump with Representatives Mills, of New York, and Ware, of Pennsylvania, both of whom will sit on the resolutions and it has been reported these two among others will carry to Cleveland the views of Mr. Coolidge.

The statement was authorized at the White House today that President Coolidge expected to send a message to the National Convention and that he preferred that the convention select the vice presidential nominee without consultation with the White House.

This course was followed by the late President Roosevelt in 1904.

Coolidge feels that delegates from all sections of the country will know the sentiment of the nation regarding the nomination of a man for the vice presidency.

Mr. Coolidge prefers that delegates themselves make the choice without dictation from him.

On May 23 last, McGraw was fined \$300 and costs by Judge Sprague in Municipal court on a liquor charge and through Attorney H. Stanley McCall, the accused is now presenting error proceedings from the finding and judgment of the court below.

Judgment for the sum of \$150 claimed as a commission on the

sale of the defendant's property at 1401 Robinson avenue, is sought in an action brought by Walter W. Bauer, real estate broker, against William J. Maple and Myrtle Maple today in Common Pleas court.

Plaintiff in his petition filed through Attorneys Bauman and Bauman that under an agreement entered into on Feb. 14, 1924, he was given the exclusive right for a period of ninety days to find a purchaser for the premises involved for the price of \$5,000 for which they agreed to pay a commission of three per cent even though the property were sold or disposed of before the expiration of the agreement. Bauer then complains that the defendants sold the property on March 20 and have refused and neglected to pay him.

**Hill Seeks Divorce.**  
Alleging willful absence for a period of more than six years, Sanford A. Hill, Circleville, suing in the Pickaway County Common Pleas court through Attorneys Abernethy and Shunkin, Circleville, seeks divorce from Louise C. In addition to a divorce Hill asks that the defendant be divested of interest in his real estate situated in the city of Circleville.

Sheriff Harry M. Dunham today received the process of the court for service upon the defendant.

## Bond Market Stimulated; Easy Money Aids In Advance of Prices

**NEW YORK, June 3.** Action of the president in signing the tax bill and holding out hope for further tax reform stimulated activity in today's equity and trading. The New York stock market was further accentuated by an abundance of money reflected in the drop in call funds to below 3 per cent. U. S. government bonds scoring moderate gains, and investment buying imparted a firm tone to the railroad list. Norfolk and Western convertible 4's advanced 1/2 cent to 107 1/2. Southern Railway common income 5's moved up 1/4 to a 1924 top price at 65 1/2. Responding to arrangement for interest payments both Virginia and Nevada issues registered substantial improvement. Wilson convertible 6's advancing almost two points. A banking syndicate handled by J. P. Morgan & Co. sold \$1,000,000 highest bid for New York City \$37,000,000, 4 1/2 per cent corporate stock and \$30,400,000 bonds, offering 100,000 for the stock and 100,000 for the bonds. The \$1501 for both issues, which had opened at 1500.

## What's The Line-Up Today?

That's what the followers of baseball are now

asking. All the "fans" are eagerly scanning the

sport columns these days.

And those whose interests extend beyond

sports are turning to the Times A-B-C Classified

Columns to find out how Opportunity is lined up.

The Opportunity House in the classified

section shows that the "fans" are entering the

same daily — and all of them are winners.

You can't find out what Opportunity's line-

up is unless you consult the classified section.

That's the only way of telling how many "stars"

are scheduled to appear.

And it's the only way to make enough op-

portunity runs to win the game in a walk.

OPERATION ADVISED FRIEND SAID "DON'T DO IT"

**Try Lydia E. Pinkham's Vegetable Compound First. Proved Good Advice**  
Chicago, Illinois.—"Just a few lines to let you know what Lydia E. Pinkham's Vegetable Compound did for me. I was married going on for three years, and went to a doctor and was taking treatments twice a week for nine months. I was used to lie in bed three or four days with them and the doctor would call and inject something into my arm to put me asleep so I would not feel the pains. At last he said I would have to be operated on if I wanted any children. Well, I just happened to go to see a friend with her first baby and I told her I was going to the hospital, and she said, 'Don't do it! You go and get a bottle of Lydia E. Pinkham's Vegetable Compound and you won't need any operation.' So my husband got me a bottle right away. Now I have two lovely children. I recommend the Vegetable Compound to every woman who has helped me and a lot of my friends."

## NOT LESS THAN A MIRACLE

THE story told by Lieut. Lowell H. Smith, the present commander of the American around-the-world flight, impresses the fact that three planes which negotiated the trip around the Aleutian Islands and into Japan performed a feat little short of the impossible.

Flying in fog, snow and rain, buffeted by the Arctic winds, yet meeting with no insuperable obstacle to their further progress, the outcome is not less than a miracle. As Lieut. Smith admits, the undertaking was many times more difficult than they had imagined it could be. If they had known what they were to be compelled to combat in the passage from America to Asia doubtless they would not have hesitated personally, for an aviator is by nature daring, but the authorities might have withheld the sanction because of the peril attending it.

That the planes were able to withstand the buffeting to which they were subjected is evidence of the stability of their construction and proof that great dependability has been gained in such craft. It is evident that tremendous progress has been made in stanchness compared with the fragile character of the earlier planes. Yet there must have been a high class of airmanship—if such word coinage is permissible—on the part of the men, for every moment must have presented problems of flight which had to be decided on the instant. There would be no time for consultation on the course to be pursued, it had to be done at once.

The element of good fortune must also be reckoned. They flew through fog but did not hit any mountains. Major Martin did. The three may not have been more capable fliers than their unlucky first leader. They had many troubles but they triumphed over them. They were attended by a more kindly destiny. May it continue until the planes finally alight at Santa Monica.

## A POOR PROGNOSTICATOR

THE "ifs" and "shoulds" are being worked overtime as the delegates prepare to gather from hither and yon at New York and Cleveland for the national convention. Every Leap Year has a season—the pre-convention season—peculiar to itself, during which "it" should be defined as a political conditional particle and "should" as a variation of this political "if."

A few specimens of the "ifs" and "shoulds" are: if the Democrats nominate McAdoo the Republican party will remain in power for four more years; should McAdoo win the Democratic nomination he will easily defeat any Republican nominee; if the Democrats nominate a "wet" and Republicans a "dry" the Republicans will elect in the opinion of the "drys," while in the opinion of the "wets" the Democrats will carry the election easily; should the conventions meet today Coolidge and McAdoo would both be nominated by their respective parties; should the conventions have met two months ago the Rooseveltian senator from California would have been the Republican nominee for president. Ad infinitum and ad nauseam.

Bishop Cannon of the Methodist Episcopal church is virtually bubbling over with the "political conditional particles." He told the general conference of his church that: "Should the Democratic party nominate a man for president who does not favor the enforcement of the Eighteenth Amendment and the Volstead act and should (again the conditional particle) the Republican party name a nominee who stands for genuine, better enforcement, then the Solid South will be solid against 'lawlessness,' that is, solid against the wet Democratic candidate."

Dr. Cannon obviously speaks more as chairman of the national legislative committee of the Anti-Saloon League of America than as a Virginia Democrat, which he professes to be, but if the busy organization of which he is legislative chairman labors under the impression that it can bulldoze either the Democratic party or the Republican party, and make either of them go beyond the law and the constitution, it is preparing new tribulation for itself. Some of the best enforcement of the Volstead act has been done by officials who don't believe in it. The notion that the South is going to give up a long political habit and tradition because a pack of extremists demands that a candidate be judged by opinions and not by acts is refreshing.

You can tell the approach to Easy Street by the easy marks that lie trimmed at the side of the road.

Good manners alone will take you to many places, including the tail end of the line at the box office.

Work will minimize the worries of all people except those who worry because they have to work.

These "epic" movies are getting to be little more than interesting sub-titles, with illustrations.

The first essential to success is labor, the second is spotlight.

## NEW YORK DAY-BY-DAY

BY O. O. MCINTYRE

NEW YORK, June 3.—This is a blur for Fred Stone, the actor. And paid \$12 for two seats to "see" his show. It is the custom of New Yorkers to believe that those who do not like plays dealing with some sex complex or other clinical subject are still in the outer darkness.

Stone has found it pays to present a performance that children can bring their parents to, without the latter becoming sufficed with blushing. He does not foster a single prohibition joke, nor is there a line in the play that could not be incorporated in a bedtime story.

En passant it might be added that Stone is America's richest actor. His play is his wife and sixteen-year-old daughter Dorothy. And there are no "ball and chain" jokes about his wife. He shows the audience even in his clowning that he is devoted to both her and the daughter.

The daughter sings a plaintive song, "Daddy, I Want You." They dance and sing and mimic each other. It is all wholesome and clean—so much so that when I left the theatre I sent Stone a telegram telling him of a new respect for the stage.

If theatrical censorship comes to New York it will be because it needs it. And Fred Stone should every day play that has been running several months glorifies the effeminate man who rouses his lips. Another glorifies a runaway trollop who endures a missionary in the South Seas.

In two others men are stealing to the bedrooms of their mistresses as the penultimate curtain falls. There isn't a burlesque show in town that is half as smutty as any one of a dozen plays that bring the evening-clothed sophisticates with knowing winks.

Fred Stone proves people can still laugh and have a good time without gutter jokes. Instead of the jaunty, unappealing, Stone offers a more appealing, young womanhood. Instead of the hardened rone, he offers a good-natured candy shop clerk in baggy pantaloons.
